We have the exact amounts paid for picking in enough cases to make it easy to compute the total paid at 85 cents per hundred, which, for both valleys would be, in round numbers, \$31,000 and experienced hop raisers estimate the picking at about one-half the entire expense of raising the crop. On this basis we have a total of something over \$60,000 paid out for raising the crop. As prices are now quoted the gross income from he crop should be at least \$150,000.

Reports come from Lake county o sales of hops at 14 cents.

Ben Cerf this week purchased 131 bales from Bivans Bros. for 13 cents. On Thursday Horst Bros. bought the Rhodes lot of hops—115 bales—at 13 ets. of the entire course. Hops are quoted in the San Francisco narket at 11c to 14c.
