GENTLEMEN'S ANNEX ENTERTAINS LADIES

The Gentlemen's Annex of the Cultus Club extended the ladies of that club a most charming evening's entertainment on Friday, April 1, beginning at 9 o'clock P. M.

The event was particularly conspicuous for the absence of anything like ostentation or that lavish display that is so disastrous to good taste. A strength and simplicity purely masculine distinguished every feature, a note so attractive to the feminine taste.

The feature of the evening was a banquet "Of all forms of entertainment, a banquet," to quote one of the speakers, "the most conducive to well-chosen words," and when the amber current of conversation was liberated about the attractively appointed table the scene at once became animated. Add to this the beautiful gowns of the ladies, mingled with rare and delicate flowers and "chatoyant" becomes the only word indeed, truly expressive of all that was sensed. The ladies of the club feel especially complimented in that they were extended a form of entertainment which invited them to a share in the mystery and fascination of beautiful words; people who do not make a study of words lose half the pleasures of life. The annex consists for the most part of men of brilliant attainments and the ladies justly feel much pride in this, their latest achievement.

W. P. Thomas was the speaker of the evening and in response to the Master of Ceremonies, J. W. Eversole, was truly eloquent. Many beautiful things, distilled in the alembic of his wit were passed to the ladies; it was as if "he the singer, they the song." He proved a most exquisite singer too. Mrs. J. W. Eversole responded in the same happy spirit.

Mr. Robert Duncan, Mr. Howard Preston and Mesdames Case, Weldon, Malpas and Barker also added to the evening's entertainment by way of remarks apropos of the occasion.

In passing it is a pleasure to say that the table service was rendered by three Ukiah girls, with such adroitness and lack of blunder that they are deserving of the highest compliment.

MAY ESTABLISH A RETAIL STORE

At a meeting of the directors of the Ukiah Creamery last Saturday the secretary made his report of the month's business showing that during the month 3285 pounds of butter had been sold. 2519 pounds were shipped to San Francisco. According to the figures of the secretary, it costs more than two cents a pound to market butter in San Francisco including freight, drayage and the charges of the commission merchant. For instance the secretary showed one return for a shipment of \$77.00 worth of butter and from this was deducted \$7.00 for the above named charges. That the butter is first class is shown by the fact that the top market price has been received for every shipment made during the past month. Most of the parties delivering cream seem to be satisfied with their returns but a few are complaining that they should have more. The above statements may show some of the reasons why a higher price cannot be paid to the producer. The Creamery is paying the producer everything above actual running expenses and has as yet set aside no part of the income for dividends to stockholders. The management has followed this policy since the establishment of the creamery in an endeavor to foster and build up a valuable industry to the community, for the reason that no stockholder had more than a few hundred dollars invested, and all have been willing that the profits go to the producer of milk until the business increased sufficiently to warrant the setting aside of a reasonable dividend to those who financed the project in the beginning.

In view of the above conditions the Directors believe the only way to get their butter on the market in Ukiah is to open a retail store of their own with a delivery wagon and sell fresh butter direct to the consumer at the current retail prices. Another meeting is to be held shortly to take action on this proposition. X.
