One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adierka) to each glass. Adierka acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours. He Performed A Stunt Like Old Casey Jones

There was a railroad accident out near Boyle's Camp several days ago when the company's locomotive No. 3 crashed through a trestle. The bridge was on fire when the engine approached the trestle in charge of Engineer George McClintock who, like the immortal "Casey Jones," never flinched from danger and like Casey: "He took the whistle and he rang the bell and he crashed on the trestle like a bat out of hell." The fire had weakened the support of the bridge, a fact unknown to Engineer McClintock, and as the heavy locomotive went on the bridge it gave way and the engine dropped and rolled over. The oil supply for the oil burner caught fire and burned until the oil was consumed. As the fall was but a short distance the locomotive was not damaged. Engineer McClintock came out without injury.

"Married Life" Not Worth While

Blames Wives' "Nerves"

"Weak nerves," said a New York doctor recently, "in my estimation wreck more happily married lives than any other cause."

Besides making the sweetest disposition sour and irritable, nervousness is a terrible drain on your vital forces—it saps your youth and your strength and dulls your beauty. What a difference from the bright-eyed, vibrant girl he married. No wonder married life seems unbearable!

But you can get rid of your nervousness—speedily too—and become the steady, serene, radiant woman you once were. Try the effect of Tanlac after meals and before going to bed, and if it doesn't soon make a new woman of you—doesn't rid you of that tired, strained feeling—go back and get your money.

Go to your druggist now and get a bottle of Tanlac. Millions of folks have started back on the road to youth, health and happiness with this world famous tonic and there is no reason why you, too, can't begin today to rebuild your worn-out tissues and revitalize your entire system.

YOUR BANKER WILL APPROVE

REPLANTING—to keep your orchard up to highest efficiency—is good business. It protects your investment, your future profits, your credit. Your banker knows that nobody ever made money from plowing, cultivating and irrigating vacant spaces in an orchard!

Unprofitable trees should be replaced each year. Make a mental note to go over your orchard right now and jot down your requirements.

Then send us your list for quotation. Early action is important. With the total supply of nursery stock much less than normal, there won't be enough foothill-grown trees to go around.

Bergtholdt foothill-grown trees have qualities peculiar to our decomposed granite soil:

Well toughened wood fiber; highly developed dormant buds; a fibrous, well-branched root system—assuring more hardiness and "pep"—better start-off after transplanting.

Bergtholdt trees are dependable, true-to-type, accurately graded, and protected in delivery. Yet they cost you no more than ordinary valley-grown stock. Whether for replanting or new planting it will pay to act at once. Send us your list today.
